

Calderprep™ Rotary Scraping Hand Tool

The Calderprep tool range is perfect for anyone who needs to prepare MDPE and HDPE pipe before electrofusion welding. Simple to use, lightweight and gives a clean single scrape time and time again.

The replaceable 4 position cutting tip provides excellent service life again saving you money. The Calderprep is available in 20mm, 25mm, 32mm, 40mm, 50mm, 63mm pipe diameters and various SDR ratings.

Add the Powerdrive adapter and use a cordless drill to prepare your pipe in under 30 seconds.

FEATURES

- Clearly visible scraped area
- Eliminate gouges in the pipe
- Environmentally friendly
- Easily collect your plastic waste
- Long service life and easy to use

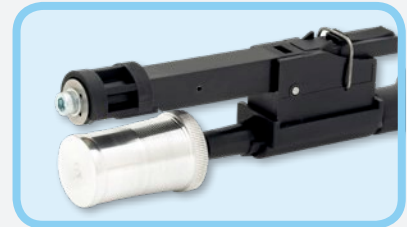

Optional

- Power drive adapter
