

SC Series Strap Clamps

The SC Series Strap Clamps are lightweight, fast set up clamps that will hold HDPE pipe securely during the weld process for pipe sizes up to 500mm.

The Strap Clamps feature a robust construction with a compact design available in 2 sizes, the SC200 for pipe sizes 40-200mm and the SC500 and for pipe sizes 160-500mm.

FEATURES

- Quick to install and easy to use
- SC200 pipe range: 40-200mm
SC500 pipe range: 160-500mm
- Compact design
- Fast acting "tug and tension" straps
- Can be supplied in double clamp format (2 clamps on each side)
- No liners required

Optional

- Angle maker knuckle bar for 22.5°, 45° and 90° elbows

SC Series Strap Clamps

Positioning Kits

Code	Description
SC200-2-S	Strap clamp, single clamp, straight runner bar 40-200mm
SC200-2-S-4	Strap clamp, double clamp, straight runner bar 40-200mm
SC200-2-K	Strap clamp, single clamp, angle maker knuckle runner bar 40-200mm
SC200-2-K-4	Strap clamp, double clamp, angle maker knuckle runner bar 40-200mm
SC200ADT	T branch leg adapter for Strap Clamp 200
34989	Additional pipe clamp assemblies for 40-200mm
SC500	Strap clamp, single clamp, straight runner bar 160-500mm
SC500-2-K	Strap clamp, single clamp, angle maker knuckle runner bar 160-500mm
SC500-2-K-4	Strap clamp, double clamp, angle maker knuckle runner bar 160-500mm
SC500ADT	T branch leg adapter for Strap Clamp 500
12799	Additional pipe clamp assemblies for 160-500mm clamp
